MI-SMARTY

SUCTION BENCH FOR SPECIAL WORKS, MANUAL WORKS OR USING TOOLS WITHOUT SUCTION. VERTICAL CARTRIDGE FILTER TO COLLECT DUST IN THE REMOVABLE POCKETS WITH MANUAL OPENING. MANUAL START.

Ergonomic-shaped bench, the MI Smarty is a work station designed to work when seated. The most silent of its range, only 64dB, with a flat surface on the side of the suction surface, therefore, the operator have the possibility to have at his fingertip many tools to work with. The standard version has a frontal wall with a led lamp assembled on the superior part, Suited to careful works, to finish delicate details but also for works in series of big productions.

Like all our benches, also the MI Smarty version is equipped with filters of F9 filter class, perfects for sanding dust, but it is possible to have different types, H class for dust dangerous for health, ATEX certified for potentially explosives dusts and/or even use some pre-filters for different needs, like paint and spray hood, or a metallic mail for a protection againts sparks for grinding and deburring with abrasives.

MI-SMARTY

The PCI version is equipped with drawers suitable to contain all the tools or products that are used to work and to have them always in view.

The professional and clean line makes it perfect for every kind of environment, jewellers` workshops, dentals technicians, silk-screen printing and much more.
